

MISSOURI
AMERICAN WATER

WE KEEP LIFE FLOWING®

HYDRATION STATION GRANT PROGRAM

Missouri American Water is committed to making a positive impact in the communities we serve by providing quality water services to our customers and supporting community, civic and charitable organizations. Our Hydration Station Grant Program is designed to make safe and healthy hydration more accessible in public spaces while also promoting environmental stewardship, as it helps reduce the number of plastic bottles that end up in landfills and bodies of water.

ELIGIBILITY

Our program provides grants to select nonprofit organizations and public institutions, such as schools, parks and community centers, to help purchase hydration stations and/or drinking fountains for indoor or outdoor use. Grants will not be awarded to individual customers, places of worship, schools requiring religious education, political organizations, or GoFundMe campaigns. To be eligible to apply, entities must receive their tap water service from Missouri American Water.

HOW TO APPLY

Visit our website at missouriamwater.com > News & Community > Community Involvement > Hydration Station Grant Program beginning March 15. Fill out the form by April 30 and provide the requested documentation. For questions, contact Megan Watson at Megan.Watson@amwater.com.

60 million
plastic bottles are not recycled and end up in landfills every day in the United States.

We're excited to keep life flowing in the communities we serve by donating convenient and environmentally-sustainable hydration stations.

Submit your application by April 30, 2024!
